

Impel Facility Services s. z o.o.

Impel Facility Services is a member of the Impel Group – Poland's largest provider of business outsourcing services. With over 35 years of experience, Impel supports businesses and institutions across the country through a comprehensive range of tailored solutions. The Group's offer includes both essential services, such as cleaning and security, as well as specialized services adapted to the specific needs of various industries.

One of the key areas of the Impel Group's operations is security services, which include the physical protection of people and property, monitoring systems, mobile surveillance towers, electronic security systems, and cash handling – including cash-in-transit and cash processing. Impel also specializes in event security, covering mass events and international conferences.

In its daily operations, Impel leverages modern technologies, applications, and systems to support security management at the facilities it serves. These tools enable the company to quickly identify threats, respond effectively, and optimize operational processes.

As part of its services, Impel conducts security audits, risk analyses, and loss prevention activities. The provided solutions ensure not only ongoing protection, but also the identification of potential threats and the implementation of preventive measures. The Impel Group's team of specialists operates according to the highest industry standards, delivering professional and reliable service – even in crisis situations.
